# Alan Wernick

Passionate developer with a devotion for anything relating to computers, technology, and electronics. Skilled in programming, with keen critical thinking skills and expertise in mobile and web application development. Rails aficionado, homebrewer, and active supporter of open-source software.

## EXPERIENCE

Ruby on Rails Developer  
Viva + Impulse Creative  
04/15 - Present

Developed and maintained large scale Rails web apps for clients such as Rudolph Mazda and the El Paso Community Foundation. Designed custom in-house, user-friendly content management system used in all current and future applications. Utilized bleeding-edge technologies and frameworks such as React.js to create award-winning reactive and intuitive user-interfaces.

Web / Mobile Developer  
Academic Technologies  
05/14 - 03/15

Designed cross-platform mobile applications and using different technologies including Flash, Java and Objective-C. Developed web apps for internal office use and third-party customers utilizing databases, MVC frameworks and mobile-responsive designs. Introduced version control into departments workflow to optimize code quality and promote team effort.

Application Developer  
UTEP Pre-Engineering  
10/13 - 07/14

Devised desktop applications to accelerate new student registration workflow during orientations for the Engineering department. Actively worked as a liason between the Pre-Engineering department and the Computer Science to establish cross-department communication and cooperation.
